Coronavirus Aid, Relief, and Economic Security Act

Question and Answers

SMALL BUSINESSES

What support is there for small businesses?
Refundable tax credits are available for private-sector employers that are required to offer coronavirus related paid leave to employees. IRS will be posting information soon on these credits on its website (www.irs.gov), including information on how to obtain advance payment of these credits.

The employer side of certain payroll taxes are deferred through the end of 2020. Deferred taxes will not become due until end of 2021 and end of 2022, with 50% of the liability being paid at each date. Any business that does not have a loan forgiven under the new SBA Paycheck Protection Program is eligible for the payroll tax deferral.

An employee retention tax credit is available for struggling businesses that are not eligible or choose not to participate in the new SBA Paycheck Protection Program. Any business that has been forced to fully or partially suspend operations, or that has seen a significant drop in revenues is eligible for a 50-percent credit for wages paid to furloughed or reduced-hour employees. For businesses with 100 employees or less, the credit is based on all wages paid, regardless of whether an employee is furloughed. There is an overall limit on wages per employee of $10,000. The credit can be claimed against the business’s quarterly payroll tax liability and is fully refundable to the extent of excess. There will also be options to receive advance payments. Small business owners should lookout for information at IRS.gov and talk to their payroll service provider, as applicable.

What type of assistance will independent contractors be eligible for?
Refundable tax credits are available for independent contractors who would have qualified for coronavirus related paid leave if they were employees. IRS will be posting information soon on these credits on its website (www.irs.gov), including information on how to claim these credits. 50 percent of certain self-employment taxes are deferred through the end of 2020. Deferred taxes will not become due until end of 2021 and end of 2022, with 50% of the liability being paid at each date.

MEDICARE

How does this bill increase access to telehealth services for seniors and other Medicare beneficiaries?
The CARES Act gives the Secretary of Health and Human Services (HHS) broad authority to allow more health care providers to provide telehealth services to Medicare beneficiaries, including in the beneficiaries’ homes to avoid potential exposure to COVID-19, and provide more flexibility in terms of how those telehealth services can be provided. Once enacted into
law, the HHS Secretary must put out guidance explaining how this expanded waiver authority will be used to increase access to telehealth services for seniors and other Medicare beneficiaries.

I’ve heard from Federally Qualified Health Centers (FQHCs) (including Community Health Centers (CHCs)) and Rural Health Clinics (RHCs) that the Administration won’t allow them to use telehealth and get paid. Does this bill help those providers deliver care via telehealth?

Yes. The CARES Act requires the HHS Secretary to provide Medicare payment to FQHCs (including CHCs) and RHCs for telehealth services provided to seniors and other Medicare beneficiaries, including in the beneficiaries’ homes to avoid potential exposure to COVID-19, during the COVID-19 public health emergency. Medicare would be required to pay the FQHC or RHC at rates similar to those for telehealth services provided from a doctor’s office. Costs associated with those telehealth services would not affect the prospective payment system for FQHCs or the all-inclusive rates for RHCs.

How does this bill help clinical laboratories when it comes to Medicare?

The CARES Act prevents scheduled Medicare payment cuts for clinical diagnostic laboratory tests furnished to Medicare beneficiaries in 2021. It also delays by one year—until 2022—the upcoming reporting period during which laboratories are required to report private payor data.

How will seniors access the medications they need while also being told it’s better to stay at home? In the past, Medicare drug plans only let beneficiaries receive a 30 day supply of their prescription.

Under the CARES Act, during the COVID-19 Public Health Emergency (PHE) a senior on Medicare can get up to 90 days of a prescription if that is what the doctor prescribed, as long as there are no safety concerns. Medicare drug plans will also allow beneficiaries to fill prescription early for refills up to 90 days, depending on the prescription.

SMALL BUSINESS

What types of businesses and entities are eligible for a PPP loan?

- Businesses and entities must have been in operation on February 15, 2020.
- Small business concerns, as well as any business concern, a 501(c)(3) nonprofit organization, a 501(c)(19) veterans organization, or Tribal business concern described in section 31(b)(2)(C) that has fewer than 500 employees or fewer employees than established by the relevant industry code.
- Individuals who operate a sole proprietorship or as an independent contractor and eligible self-employed individuals.
- Any business concern that employs not more than 500 employees per physical location of the business concern and that is assigned a North American Industry Classification System code beginning with 72, for which the affiliation rules are waived.
- Affiliation rules are also waived for any business concern operating as a franchise that is assigned a franchise identifier code by the Administration, and company that receives funding through a Small Business Investment Company

What are affiliation rules?
They become important when SBA is deciding whether a business’s affiliations preclude them from being considered “small.” Generally, affiliation exists when one business controls or has the power to control another or when a third party (or parties) controls or has the power to control both businesses. Please see this resource for more on these rules and how they can impact your business’s eligibility.

**How is the loan size determined?**
Depending on your business’s situation, the loan size will be calculated in different ways (see below). The maximum loan size is always $10 million.

- If you were in business February 15, 2019 – June 30, 2019: Your max loan is equal to 250 percent of your average monthly payroll costs during that time period. If your business employs seasonal workers, you can opt to choose March 1, 2019 as your time period start date.

- If you were not in business between February 15, 2019 – June 30, 2019: Your max loan is equal to 250 percent of your average monthly payroll costs between January 1, 2020 and February 29, 2020.

- If you took out an Economic Injury Disaster Loan (EIDL) between February 15, 2020 and June 30, 2020 and you want to refinance that loan into a PPP loan, you would add the outstanding loan amount to the payroll sum.

Payroll costs **plus** any payment of interest on any covered mortgage obligation (not including any prepayment or payment of principal on a covered mortgage obligation) **plus** any payment on any covered rent obligation **plus** any covered utility payment.

**How do I get forgiveness on my PPP loan?**

You must apply through your lender for forgiveness on your loan. In this application, you must include:

- Documentation verifying the number of employees on payroll and pay rates, including IRS payroll tax filings and State income, payroll and unemployment insurance filings

- Certification from a representative of your business or organization that is authorized to certify that the documentation provided is true and that the amount that is being forgiven was used in accordance with the program’s guidelines for use.
What happens after the forgiveness period?

Any loan amounts not forgiven at the end of one year is carried forward as an ongoing loan with max terms of 10 years, at 4% max interest. Principal and interest will continue to be deferred, for a total of 6 months to a year after disbursement of the loan. The clock does not start again.
